FINAL DRIVES

As specialists in genuine, OEM, and FDC brand Final Drives, we offer solutions for over 150 excavator brands.

Whether you need a complete Final Drive, a refurbished unit, or an aftermarket solution built to OEM standards, our expert technicians will configure the right system for your machine and budget

SWING DRIVES

We supply Swing Drives for over 150 excavator brands, covering 1,000+ models.

Whether you need a replacement swing motor, gearbox, complete assembly, or individual parts like reduction sets, seal kits, brake plates, or rotating groups, we've got you covered.

With our fully stocked warehouse, trusted supply chain, and fast delivery of new, genuine, OEM, and FDC brand swing drives, you can count on us to keep your machine working.

HYDRAULIC PUMPS

A close-up photograph of a red hydraulic pump. The pump is made of cast metal and has several ports and bolts. The text 'M10 8X10' is cast into the side of the pump. The background is a blurred grey surface.

We stock a huge range of genuine and high-quality aftermarket Hydraulic Pumps for all leading excavator and backhoe loader brands, including trusted names like Kawasaki, Komatsu, and Nachi. Whether you're looking for a direct replacement, a cost-effective rebuild kit or individual parts, our extensive inventory ensures we can meet your needs quickly and reliably.

With fast delivery, proven quality, and expert support, we'll help you keep your machine performing at its best.

SLEW RINGS

A close-up, high-contrast photograph of a metal slew ring. The ring is curved, showing its gear teeth on one side and a series of circular mounting holes on the other. The metal has a brushed, industrial appearance with some visible wear and slight discoloration. The background is dark and out of focus.

We supply high-quality slew rings for over 9,000 makes and models.

Manufactured by the same trusted suppliers that work with leading OEMs using the latest technology and the highest quality materials—delivered at highly competitive prices.

With our global supply network and extensive in-stock range, we offer the fastest possible turnaround, including same-day dispatch on all available Slew Rings.

FIND THE PART YOU NEED. FAST.

HIGH AVAILABILITY OF PARTS

Our strong supply chain and continued stock investment means we have the parts you need when you need them.

RELIABLE SUPPORT

Depend on us! We have grown our staff, stock and turnover every year since 1991 by providing reliable products and quality support.

SPECIALIST REPAIRS

Our state-of-the-art workshop is the hub for our hydrostatic diagnostics, repairs and reconditioning.

ONLINE PARTS FINDER

Our searchable database of over 2 million part numbers is another reason our team can consistently help you maintain your machine.

EXPERT FRIENDLY ADVICE AND TECHNICAL INSIGHT

Our friendly team of experts can correctly identify the parts you need, providing you reliable options to maximise your uptime.

GUARANTEE OF PERFORMANCE

We guarantee that the parts we supply will fit and perform to specification, or your money back!

ADVANCED DIAGNOSTICS AND WORKSHOP

FREE OF CHARGE* COLLECTION +
INSPECTION FOR WORKSHOP SERVICES

UK Mainland

Our teardown and inspection services are included for free with repairs or overhauls of gearboxes and hydraulic motors. We are a specialist repair and reconditioning centre for final drives, swing drives and hydrostatic gearboxes.

With direct access to thousands of parts and detailed technical drawings, we precisely identify faults and find the exact parts to fix them, replacing only what is necessary and reconditioning parts wherever possible to ensure you get the most cost-effective repair.

We can configure drives to meet your specific needs. If you require the machine to be braked, run slower or faster, or even work underwater, our knowledgeable workshop staff can deliver.

FOC Collection + Inspection for workshop services

Final Drive Repair

Swing motor & swing box repairs

Hydraulic motors

All components tested prior to dispatch

Reconditioning old units when more innovative solutions are needed.

GUARANTEE

As suppliers and refurbishes of a whole range of Genuine, OEM and Aftermarket brand drives and parts, we know them inside out.

Our technicians configure systems to meet your exact requirements and price points, whether that's genuine or OEM parts or aftermarket solutions at OEM standards.

We guarantee your part will fit and perform to specification. Our knowledgeable team can help you select the appropriate part for your machine or you can use the [FDC parts finder](#) to select the part you need.

We will exchange any part in the event of it not working or not fitting on arrival.

Plant Parts can make this unequivocal guarantee because:

- We have expert knowledge gained over 30 years of operation
- Our FDC parts database of original, OEM and replacement parts enables you to locate the exact part that you require.
- If you buy a reconditioned drive, it will be tested before despatch in our workshop

By combining quality parts with the best prices available, we put together competitive parts packages for those time-sensitive servicing or refurbishing projects.

FDC ENGINEERED FOR SUCCESS

FDC is the only internationally recognised and supported aftermarket brand for final drives and swing drives.

Our detailed knowledge of OEM performance ensures an FDC final drive performs the same as its equivalent OEM drive.

An FDC final drive delivers the same functionality, performance and quality as the genuine or OEM assembly, but at an aftermarket price and with a 2-year warranty.

Built for the toughest environments our extensive range of final drives, gearboxes and motors are the same as those approved and used by market leading machine manufacturers.

With no compromise on quality or performance, and FDC final drive is not just a quick fix. We guarantee the quality and performance of every unit we sell, making you money go further and maximising your uptime.

THE RIG

Our advanced hydraulic testing facility

After years of planning, design, and collaboration with specialist partners, this purpose-built facility represents an investment of £1M+, the largest single project in our 30+ year history.

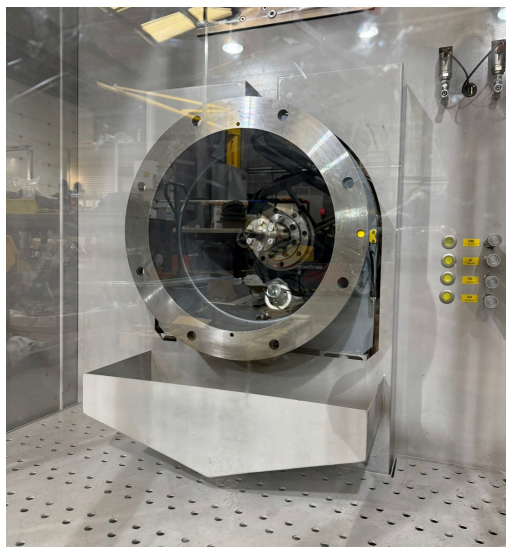

With The Rig, Plant Parts can test every repaired motor under **real-world load conditions**, going far beyond standard batch or functional testing.

- Load testing up to 132 kW
- Coverage for motors from 18cc to 340cc
- Simulation of real-world operating conditions
- Fully automated, single-operator testing
- Advanced data acquisition and performance reporting

This guarantees Unmatched reliability for end-users and Industry-specific solutions for sectors like mining, demolition, and waste management plus real confidence that repairs meet OEM standards.
